What's it called Adam?

Jenny Butler

Do you see all the animals walking on the land? Do you see all

the fishes swimming by the sand? Do you see all the birds flying so high.

Lets name them as they go by. It's small and black lets call it a bat. It's soft and cute

lets call it a cat. It's slow and small let's call it a snail. It's big and blue lets call it a whale.

It hops and ribbits lets call it a frog. It runs and barks lets call it a dog.

It's white and flies lets call it a goose. It's large and brown lets call it a moose.
