

IN THE GARDEN

I was walking in the garden one day
Walking with God in the garden one day
Walking in the garden one day
Walking with God in paradise

We were watching the animals go by
Lions, tigers, and bears oh my
Watching the animals go by
Walking, jumping, and slithering by

I was talking in the garden one day
Talking with God in the garden one day
Talking in the garden one day
Talking with God in paradise

And God said I have a friend for you
She is made for you
I have a friend for you
She is made from you

We were walking in the garden one day
Walking and talking our cares away
Walking in the garden one day
Living life in paradise
